

A Host for 2012

Planning

Hackney Wick Partnership

The partnership is particularly concerned to ensure that local people are able to access information about the changes in their area and give their own views. It gives advice on how to best reach this community and co-ordinates the timing and understanding of the huge amount of consultations taking place. To achieve this, it has supported Hackney Council in arranging regular 2012 Olympic meetings in the Wick and inviting all the relevant Olympic authorities to attend and contribute.
