

Controlled Parking Zone E Extension (Stoke Newington)

Results of your Controlled Parking Zone Review

Zone E Extension Summary Leaflet

Why have I received this summary leaflet?

Between January and March 2011, Parking Services consulted local people in Controlled Parking Zone E extension (Stoke Newington) to see whether the parking controls in the area were meeting your needs.

The consultation was held as part of a commitment to review the borough's existing CPZs every five to seven years in line with the Council's Parking and Enforcement Plan (2010-15).

We are pleased to announce that the consultation feedback has been reviewed and the final design changes have been approved by the Council. We will soon be starting sign and lining works in the area to implement these changes.

This booklet provides a summary of the consultation results and what changes will soon be made to your CPZ. It also provides dates when works are likely to begin.

If you would like to view the full consultation results please download a copy of the 'delegated report' from our website: www.hackney.gov.uk-hys, email: consultparking@hackney.gov.uk or call Parking Services on **020 8356 8877**.

We would like to thank those people who returned their questionnaire and provided feedback during the consultation.

CPZ Design Changes

During the review, consultation packs were delivered to all residents and businesses in the CPZ as everyone's opinion counts. During the public consultation we sought your views on:

- The hours parking controls apply in your Zone
- The design of the CPZ including the location and type of parking bays

CPZ operational hours

During the consultation we asked for your preferred days and hours of enforcement, and provided three choices of operational hours.

Overall, the majority of you (62%) favoured the current hours of control.

As such, the Zone E extension operational hours will remain:

Monday to Friday 8:30am - 5:30pm and Saturday 8:30am - 1:30pm.

Changes in bay allocation

We also asked for your views on several changes in parking bay allocation so that the design of parking controls better reflects the needs of local users.

Prior to the review we compared the number of permit holders in each street against the availability of parking bays. Based on this analysis we proposed several changes to the allocation of parking spaces where there was either over or under capacity of parking spaces.

Based on your support the following changes will soon be made:

Street	Change in parking bay allocation
Chesholm Road	Change the business bay to the side of 47 Kynaston Road to permit holders only.
Dumont Road	Change the pay and display bay outside No 1 to a resident permit bay.
Stoke Newington Church Street	Change 9 metres of the pay and display bay outside No 105 to a loading bay.

Additional parking spaces

Where possible we try to install new parking spaces where the road is wide and safe enough to do so. The following parking bay will soon be installed:

Street	New parking bays and extensions
Lawrence Buildings	To install a new loading bay at the rear of Nos 144-146 Stoke Newington High Street

Road safety improvements

As part of the review we have examined the safety of your CPZ, including the location of parking bays and yellow lines and will soon be making several changes to improve visibility and access within the parking zone.

All road safety changes were made in close consultation with the Emergency Services and the Council's Road Safety Team. They also follow the Department for Transport's guidelines.

Street	Change	Reason
Lavers Road	Remove the business bay to the side of No 62 Dynevor Road and relocate the adjacent disabled bay in its place.	Removing this parking bay will help to improve access and visibility at the junction.
Nevill Road	Reduce the residents bay to the side of No 59 Kynaston Road.	Reducing the length of this parking bay will help to improve access and visibility at the junction.
Nevill Road	Reduce the resident permit bay outside No 83 by 5 metres on its southern side.	This parking bay obstructs visibility for oncoming traffic and cyclists. This change will improve road safety at this location.
Nevill Road	Reduce the resident permit bays outside No 68 and 72 by 3.5m and replace with double yellow line.	This will improve visibility at the junction with Dynevor Road.

The London Borough of Hackney is committed to providing a safe environment for all road users. We are unable to consider further amendments to the agreed installation of double yellow lines where road safety may be compromised; however we will continue to review the design changes where necessary.

Key Dates

August 2011

We expect to begin sign and lining works in the area.

Please note that it may be necessary to suspend some parking bays in your street to allow the lining works to take place. Please check for any yellow suspension signs before parking to avoid receiving a Penalty Charge Notice (PCN).

If you suspect your vehicle has been removed or relocated please call Trace on 0207 747 47 47.

For more information about when the works are planned to take place please contact:
consultparking@hackney.gov.uk
