

Appendix 3: Assessment of Supporting Neighbourhoods and Communities

Policy 8 - Focusing Social Investment

The Core Strategy will work with key infrastructure providers, such the Learning Trust, City and Hackney PCT, the Metropolitan Police, Hackney Homes, Job Centre Plus and other key public and voluntary and community sector partners to align investment programmes and planning contributions for delivering new or enhanced social infrastructure in Hackney's in areas where the evidence demonstrates are most in need and growth areas including:

- Hackney Central
- Dalston
- East London Line Extension Corridor
- South Shoreditch
- Woodberry Down/Manor House
- Hackney Wick
- Estate Renewal Areas

The Council will also resist the loss of social infrastructure in Hackney - deleted

SA/SEA Objectives and relevant Baseline	Description of effect				Significance & relevant significant effect indicator	Avoidance/Mitigation/Enhancement
<p>Topic areas are ranked against their performance against current targets however the assessment is based on the full scoping report evidence. Please see updated Scoping Report, 2009 for full details.</p>	<p>This section also sets out the level of risk should the policy not be implemented as intended especially in on topic areas where Hackney's baseline performance against current targets is poor, very poor or at critical levels.</p>	Likelihood	Timescale	Permanence		

SA/SEA Objectives	<p>Objective 1: to protect and enhance biodiversity, flora and fauna</p> <p>Objective 2: To ensure efficient use of natural resources</p>					
Biodiversity	No change.				? Depends how this is implemented	The quality of the new facilities should be of the highest standards of design and construction. Include green/brown roofs and SUDS.
SA/SEA Objectives	Objective 1: Objective 2: To ensure efficient use of natural resources					
Soil, Water & Noise	No change.		S	F	? Depends how this is implemented	The quality of the new facilities should be of the highest standards of design and construction.
SA/SEA Objectives	<p>Objective 3: To improve air quality</p> <p>Objective 7: To reduce greenhouse gas emissions and promote efficient use of energy in all activities</p>					

Air	No change.				? Depends how this is implemented	The quality of the new facilities should be of the highest standards of design and construction.
SA/SEA Objective	<p>Objective7: To reduce greenhouse gas emissions and promote the efficient use of energy in all activities</p> <p>Objective 9: To promote sustainable design</p> <p>Objective 5: To minimize flood risk and encourage Sustainable Urban Drainage System (SUDs) for new developments</p>					
Climate					? Depends how this is implemented	The quality of the new facilities should be of the highest standards of design and construction.
SA/SEA Objectives	Objective 18: To minimise waste and maximize recycling in the borough					

Waste	No change.			p	? Depends how this is implemented	New developments should include facilities for sustainable waste management.
SA/SEA Objectives	Objective 9: To protect and enhance the borough's historic environment and preserve the archaeological aspects of the borough					
Cultural Heritage	.			p	? Depends how this is implemented	The quality of the new facilities should be sensitive to conservation and heritage.
SA/SEA Objectives	Objective 11: To maintain and enhance Metropolitan Open Land and Open Spaces and enhance the landscape character					

Landscape and Townscape	No change.				? Depends how this is implemented	The standards of design should be of the highest standards.
Sa/SEA Objective	No relevant SA/SEA Objectives have been identified for this sustainability topic.					
Population	No change.				+	.
SA/SEA Objective	<p>Objective 3: To improve air quality</p> <p>Objective 4: To reduce noise pollution</p> <p>Objective 10: To reduce poverty and social exclusion</p> <p>Objective 12: To improve the health of people and promote healthy lifestyle</p> <p>Objective 15: To increase the number of decent and affordable homes</p> <p>Objective 16: To provide access to an adequate range of support and community facilities.</p>					

Human Health	No change.				Positive +	<p>. Alignment with AAPs. Resolution with S106</p> <p>More evidence on areas in need and the levels of infrastructure required.</p>
SA/SEA Objectives	<p>Objective 16: To provide access to an adequate range of support and community facilities</p> <p>Objective 10: To reduce poverty and social exclusion and promote cultural diversity</p> <p>Objective 13: To promote educational attainment and the skill level of population</p> <p>Objective 20: To generate employment opportunities for everyone</p> <p>Objective 15: To increase the number of decent and affordable houses</p>					
Equalities	<p>Respondee 14 noted There is no mention of facilities for the elderly or youth.</p>				+	<p>Alignment with AAPs. Resolution with S106</p> <p>More evidence on areas in need and the levels of infrastructure required.</p>

SA/SEA	<p>Objective 16: To provide access to an adequate range of support and community facilities</p> <p>Objective 10: To reduce poverty and social exclusion and promote cultural diversity</p> <p>Objective 13: To promote educational attainment and the skill level of population</p> <p>Objective 20: To generate employment opportunities for everyone</p> <p>Objective 15: To increase the number of decent and affordable houses</p>					
Poverty and social exclusion					+	<p>Alignment with AAPs.</p> <p>Resolution with S106</p> <p>More evidence on areas in need and the levels of infrastructure required.</p> <p>Must be located in areas of need.</p>
SA/SEA Objectives	<p>Objective 13: To promote educational attainment and the skill level of population</p> <p>Objective 20: To generate employment opportunities for everyone</p>					

Employment and Skills	<p>No change.</p> <p>Respondee 9 set out Children and the youth are the future there education is crucial for the positive growth of the Borough. More can be done to ensure that there are faculties to enable individuals to go to the type of school of their choice.</p>				<p>Positive, depends how it is implemented. +/-?</p>	
SA/SEA Objective	Objective 14: To reduce crime, the fear of crime and anti-social behaviour of the borough					
Crime and Safety	<p>potential indirect positive effect on crime by the provision of youth facilities and better education and social infrastructure.</p>				<p>Positive, depends how it is implemented. +/-?</p>	<p>However dependant on full implementation.</p>
SA/SEA Objective	<p>Objective 6: To reduce the need to travel and encourage use of public transport including walking and cycling</p> <p>Objective 7: To reduce greenhouse gas emissions and promote the efficient use of energy in all activities</p>					

Transport	No change				? depends how this is implemented	<p>May be conflicts with the lack of infrastructure and accessibility to these facilities.</p> <p>Should not just be located in high PTAL areas,. Areas most in need may be in less accessible locations.</p>
SA/SEA Objective	<p>Objective: to increase the number of decent and affordable homes</p> <p>Objective 10: To reduce poverty and social exclusion and promote cultural diversity.</p> <p>Objective 11; To encourage complementary activities and land uses together to make more efficient and effective use of land.</p>					
Housing	No change may be negative effects in relation to viability and availability of land for housing.				Positive +/-	Essential supporting infrastructure is delivered to support existing housing stock as well as future predicted future growth.
SA/SEA Objective	Objective 19: To promote sustainable economic growth					

Economy	. There may be competing land uses for employment in areas of good accessibility. How to we address this.	-	-	0	Positive +/-?	Issues of competing land uses in accessible areas and demands for community infrastructure. Indirect effects. Having a better supported community may better increase access to employment. Dependant on how effectively this is delivered.
---------	---	---	---	---	---------------	---

)

Policy 9 Investing in Education

The Council will work in partnership with the Learning Trust to

To meet the needs of Hackney's growing population of children and young people so that children and young people in Hackney, including those with special educational needs have access to a high quality of education and the learning environment through:

- A) Favourably considering proposals for new educational facilities especially in areas in Hackney, where the evidence demonstrates, are in the greatest need including Hackney's growth areas
- B) Safeguarding appropriate sites for new or expansion of existing educational infrastructure in Hackney.
- C) Seeking reasonable financial or other contributions from new housing development for education infrastructure to ensure that future pressures on educational infrastructure is proactively addressed
- D) Working with the Learning Trust to align educational investment programmes with areas experiencing the highest levels of housing growth and increases in the pupil-aged population.

Policy 10

Lifelong learning

The Council will work with the Learning Trust, Hackney Homes, Job centre Plus and other stakeholders to bring informal learning facilities closer to the most vulnerable residents, especially workless families Hackney through:

- A) Seeking a range of planning contributions from major physical regeneration initiatives and the Estate renewal Programme, to place for lifelong facilities in Hackney's estate renewal areas and other growth areas.
- B) Working with the Learning Trust to encourage Children's Centres and Primary Schools, especially those developed through the Primary Capital Programme, to become hubs at the heart of neighbourhood life that provide a greater range of services to the community including family learning and support services.

<p>SA/SEA Objectives and relevant Baseline</p> <p>Topic areas are ranked against their performance against current targets however the assessment is based on the full scoping report evidence. Please see updated Scoping Report, 2009 for full details.</p>	<p>Description of effect</p> <p>This section also sets out the level of risk should the policy not be implemented as intended especially in on topic areas where Hackney's baseline performance against current targets is poor, very poor or at critical levels.</p>	Likelihood	Timescale	Permanence	Significance & relevant significant effect indicator	Avoidance/ Mitigation/ Enhancement
SA/SEA Objectives	<p>Objective 1: to protect and enhance biodiversity, flora and fauna</p> <p>Objective 2: To ensure efficient use of natural resources</p>					
Topic: Biodiversity	No change.				? Depends how it is implemented.	<p>Apply with supporting CS environmental policies.</p> <p>New facilities to be designed with green/brown roofs and SUDS as appropriate.</p>
SA/SEA Objectives	Objective 1: Objective 2: To ensure efficient use of natural resources					

Soil, Water & Noise	No change.				? Depends how it is implemented.	<p>Apply with supporting CS environmental policies.</p> <p>Facilities should be of the highest standards of design and construction.</p>
SA/SEA Objectives	<p>Objective 3: To improve air quality</p> <p>Objective 7: To reduce greenhouse gas emissions and promote efficient use of energy in all activities</p>					
Air	No change.				? Depends how it is implemented.	<p>Apply with supporting CS environmental policies.</p> <p>Should be in locations accessible by public transport.</p>
SA/SEA Objective	<p>Objective7: To reduce greenhouse gas emissions and promote the efficient use of energy in all activities</p> <p>Objective 9: To promote sustainable design</p> <p>Objective 5: To minimize flood risk and encourage Sustainable Urban Drainage System (SUDs) for new developments</p>					

Climate					? Depends how it is implemented.	Apply with supporting CS environmental policies.
SA/SEA Objectives	Objective 18: To minimise waste and maximize recycling in the borough					
Waste	No change.				? Depends how it is implemented.	Apply with supporting CS environmental policies. Developments should include facilities for sustainable waste management.
SA/SEA Objectives	Objective 9: To protect and enhance the borough's historic environment and preserve the archaeological aspects of the borough					
Cultural Heritage					? Depends how it is implemented.	Apply with supporting CS environmental policies. Developments should be sensitive to conservation areas, listed building and other protected heritage.

SA/SEA Objectives	Objective 11: To maintain and enhance Metropolitan Open Land and Open Spaces and enhance the landscape character					
Landscape and Townscape Poor to very poor	No change.				? Depends how it is implemented.	Apply with supporting CS environmental policies. Facilities should be of the sensitively designed to fit in with the surrounding developments.
Sa/SEA Objective	No relevant SA/SEA Objectives have been identified for this sustainability topic.					
Topic: Population	No change.				Neutral 0	The policy will assist in managing the increases in population growth but not influence the levels of growth. Provision of facilities may have indirect effects on the way growth is dispersed

SA/SEA Objective	<p>Objective 3: To improve air quality</p> <p>Objective 4: To reduce noise pollution</p> <p>Objective 10: To reduce poverty and social exclusion</p> <p>Objective 12: To improve the health of people and promote healthy lifestyle</p> <p>Objective 15: To increase the number of decent and affordable homes</p> <p>Objective 16: To provide access to an adequate range of support and community facilities.</p>					
Human Health	Positive.				/+ positive	Should be located in areas of need as well as areas of growth.
SA/SEA Objectives	<p>Objective 16: To provide access to an adequate range of support and community facilities</p> <p>Objective 10: To reduce poverty and social exclusion and promote cultural diversity</p> <p>Objective 13: To promote educational attainment and the skill level of population</p> <p>Objective 20: To generate employment opportunities for everyone</p> <p>Objective 15: To increase the number of decent and affordable houses</p>					

Equalities	No impact				?/+ positive, depends how the policy is implemented	Locate in areas most in need not just growth areas.
SA/SEA	<p>Objective 16: To provide access to an adequate range of support and community facilities</p> <p>Objective 10: To reduce poverty and social exclusion and promote cultural diversity</p> <p>Objective 13: To promote educational attainment and the skill level of population</p> <p>Objective 20: To generate employment opportunities for everyone</p> <p>Objective 15: To increase the number of decent and affordable houses</p>					
Poverty and social exclusion					?/+ positive, depends how the policy is implemented	If delivered this will significant improve quality of life. Locations in areas of growth should not be to the exclusion of areas of need.
SA/SEA Objectives	<p>Objective 13: To promote educational attainment and the skill level of population</p> <p>Objective 20: To generate employment opportunities for everyone</p>					

Employment and Skills	How is the investment going to work within the timeframes of the AAP's?				?/+ positive, depends how the policy is implemented	This is an indirect effect. Focused education facilities in the most deprived areas to raise standards.
SA/SEA Objective	Objective 14: To reduce crime, the fear of crime and anti-social behaviour of the borough					
Crime and Safety					?/+ positive, depends how the policy is implemented	Focus education facilities in the most deprived areas.
SA/SEA Objective	Objective 6: To reduce the need to travel and encourage use of public transport including walking and cycling Objective 7: To reduce greenhouse gas emissions and promote the efficient use of energy in all activities					
Transport					? Depends on how the policy is implemented.	Locate facilities should be in accessible locations however this should not be to the exclusion of areas of need. .

SA/SEA Objective	<p>Objective: to increase the number of decent and affordable homes</p> <p>Objective 10: To reduce poverty and social exclusion and promote cultural diversity.</p> <p>Objective 11; To encourage complementary activities and land uses together to make more efficient and effective use of land.</p>					
Housing	No change	-	-	0	Positive, but dependant on how this is implemented. +/-?	Essential supporting infrastructure. The new infrastructure should be located in areas of housing growth however, there are existing levels of deprivation and need and these areas also need to be addressed.
SA/SEA Objective	Objective 19: To promote sustainable economic growth					
Economy	No change. Minor positive effect. Higher quality developments will improve hackney's image as a place to live and work.	-	-	0	Positive, but dependant on how this is implemented. +/-?	Indirect positive. The better provision of education facilities will support increases in access to jobs.

Policy 11 Health Investment and infrastructure

The Council will work with City and Hackney Primary Care trust and Homerton University Hospital Foundation trust to raise the quality of healthcare and the health of Hackney's residents through;

- A) favourably considering proposals for new healthcare facilities in Hackney's growth areas and areas where the evidence demonstrates, are the greatest need
- B) Seeing reasonable financial or other contributions from housing or commercial development for addressing pressures on Hackney's health infrastructure
- C) Identifying appropriate sites for new health infrastructure especially within Hackney's growth areas through the Site Specific Allocations DPD, Area Action Plans DPDs and other appropriate DPDs.
- D) Working with the primary care trust to encourage the provisions and design of flexible community facilities that can accommodate community based health services.
- E) Facilitating the role of Homerton as a strategic hospital for Hackney and London along with supporting its role during the 2012 Olympic games.

<p>SA/SEA Objectives and relevant Baseline</p> <p>Topic areas are ranked against their performance against current targets however the assessment is based on the full scoping report evidence. Please see updated Scoping Report, 2009 for full details.</p>	<p>Description of effect</p> <p>This section also sets out the level of risk should the policy not be implemented as intended especially in on topic areas where Hackney's baseline performance against current targets is poor, very poor or at critical levels.</p>	<p>Likelihood</p>	<p>Timescale</p>	<p>Permanence</p>	<p>Significance & relevant significant effect indicator</p>	<p>Avoidance/ Mitigation/Enhancement</p>
<p>SA/SEA Objectives</p>	<p>Objective 1: to protect and enhance biodiversity, flora and fauna</p> <p>Objective 2: To ensure efficient use of natural resources</p>					

Biodiversity	No change. Any development can incur adverse impact if not carried out sensitively and of high quality design and construction.				-/? Negative depends how the policy is implemented	Apply with supporting CS environmental policies.
SA/SEA Objectives	Objective 1: Objective 2: To ensure efficient use of natural resources					
Soil, Water & Noise	No change. Any development can incur adverse impact if not carried out sensitively and of high quality design and construction.				0	Apply with supporting CS environmental policies.
SA/SEA Objectives	Objective 3: To improve air quality Objective 7: To reduce greenhouse gas emissions and promote efficient use of energy in all activities					
Air	No change. Any development can incur adverse impact if not carried out sensitively and of high quality design and construction.				?/- negative, depends how the policy is implemented	Apply with supporting CS environmental policies.

SA/SEA Objective	<p>Objective7: To reduce greenhouse gas emissions and promote the efficient use of energy in all activities</p> <p>Objective 9: To promote sustainable design</p> <p>Objective 5: To minimize flood risk and encourage Sustainable Urban Drainage System (SUDs) for new developments</p>					
Climate	Any development can incur adverse impact if not carried out sensitively and of high quality design and construction.				?/- negative, depends how the policy is implemented	Apply with supporting CS environmental policies.
SA/SEA Objectives	Objective 18: To minimise waste and maximize recycling in the borough					
Waste	No change. Any development can incur adverse impact if not carried out sensitively and of high quality design and construction.			PP	0	Apply with supporting CS environmental policies.
SA/SEA Objectives	Objective 9: To protect and enhance the borough's historic environment and preserve the archaeological aspects of the borough					

Cultural Heritage	Any development can incur adverse impact if not carried out sensitively and of high quality design and construction.				?/- negative, depends how the policy is implemented	Apply with supporting CS environmental policies.
SA/SEA Objectives	Objective 11: To maintain and enhance Metropolitan Open Land and Open Spaces and enhance the landscape character					
Landscape and Townscape	No change. Any development can incur adverse impact if not carried out sensitively and of high quality design and construction.				0	Apply with supporting CS design policies.
Sa/SEA Objective	No relevant SA/SEA Objectives have been identified for this sustainability topic.					
Population	No change.				Neutral 0	The policy will assist in managing the increases in population growth.

SA/SEA Objective	<p>Objective 3: To improve air quality</p> <p>Objective 4: To reduce noise pollution</p> <p>Objective 10: To reduce poverty and social exclusion</p> <p>Objective 12: To improve the health of people and promote healthy lifestyle</p> <p>Objective 15: To increase the number of decent and affordable homes</p> <p>Objective 16: To provide access to an adequate range of support and community facilities.</p>					
Human Health	<p>No change.</p> <p>Preferred options responsee 45 noted that The Core Strategy should take full account of the spatial implications of health in terms of factors or variables and provide the basis for creating a sustainable community No explicit reference to health in context of a policy option or as a cross cutting theme</p> <p>Hackney's Core Strategy needs to reflect the concept of being spatial framework as well as taking account of other key borough documents including PCT strategies and plans for neighbourhood health services and premises. Hackney is taking the joint up approach to produce the Strategic Needs Assessment with the PCT and this will need to be fed into the document to address issues such as tackling inequalities.</p>	-	-	0	Positive +	<p>Align with AAPs .</p> <p>Consider reference to areas most in need.</p> <p>Work to implement with S106.</p> <p>Infrastructure study to identify areas of need.</p>

SA/SEA Objectives	<p>Objective 16: To provide access to an adequate range of support and community facilities</p> <p>Objective 10: To reduce poverty and social exclusion and promote cultural diversity</p> <p>Objective 13: To promote educational attainment and the skill level of population</p> <p>Objective 20: To generate employment opportunities for everyone</p> <p>Objective 15: To increase the number of decent and affordable houses</p>					
Equalities	No impact				?/+ positive, depends how the policy is implemented	<p>Align with AAPs .</p> <p>Consider reference to areas most in need.</p> <p>Work to implement with S106.</p>
SA/SEA	<p>Objective 16: To provide access to an adequate range of support and community facilities</p> <p>Objective 10: To reduce poverty and social exclusion and promote cultural diversity</p> <p>Objective 13: To promote educational attainment and the skill level of population</p> <p>Objective 20: To generate employment opportunities for everyone</p> <p>Objective 15: To increase the number of decent and affordable houses</p>					
Poverty and social exclusion					?/+ positive, depends how the policy is implemented	<p>Align with AAPs .</p> <p>Consider reference to areas most in need.</p> <p>Work to implement with S106.</p>

SA/SEA Objectives	<p>Objective 13: To promote educational attainment and the skill level of population</p> <p>Objective 20: To generate employment opportunities for everyone</p>					
Employment and Skills	No change.				?/+ positive, depends how the policy is implemented	
SA/SEA Objective	Objective 14: To reduce crime, the fear of crime and anti-social behaviour of the borough					
Crime and Safety	Neutral				?/+ positive, depends how the policy is implemented	
SA/SEA Objective	<p>Objective 6: To reduce the need to travel and encourage use of public transport including walking and cycling</p> <p>Objective 7: To reduce greenhouse gas emissions and promote the efficient use of energy in all activities</p>					

Transport	No change. May be located in need (as well as in growth locations) which may not always be the most accessible locations by public transport. as well as in growth locations. May al				?/- negative, depends how the policy is implemented	Support public transport infrastructure i.e bus routes to accompany new facilities especially in poorly accessible locations.
SA/SEA Objective	<p>Objective: to increase the number of decent and affordable homes</p> <p>Objective 10: To reduce poverty and social exclusion and promote cultural diversity.</p> <p>Objective 11; To encourage complementary activities and land uses together to make more efficient and effective use of land.</p>					
Housing	No change. Importing infrastructure uses may restrict the amount of land for housing but this should not be significant.				?/- negative, depends how the policy is implemented	
SA/SEA Objective	Objective 19: To promote sustainable economic growth					
Economy	No change. Minor positive effect. Potential links to education and skills.				?/+ positive, depends how the policy is implemented	

Policies 12 Health and the environment						
The Council will develop detailed planning policies and favourably consider development proposals that help develop an urban and natural environment that enables all Hackney residents regardless of age, family types and abilities to lead a more healthy and active lifestyles in which physical activity plays a greater part in people's daily lives and obesity among children's is tackled more effectively through the physical environment.						
SA/SEA Objectives and relevant Baseline	Description of effect	Likelihood	Timescale	Permanence	Significance	Avoidance/ Mitigation/ Enhancement
Topic areas are ranked against their performance against current targets however the assessment is based on the full scoping report evidence. Please see updated Scoping Report, 2009 for full details.	This section also sets out the level of risk should the policy not be implemented as intended especially in on topic areas where Hackney's baseline performance against current targets is poor, very poor or at critical levels.					
SA/SEA Objectives	Objective 1: to protect and enhance biodiversity, flora and fauna Objective 2: To ensure efficient use of natural resources					
Topic: Biodiversity		L	L	P	+/? positive, depends how the policy is implemented	

SA/SEA Objectives	Objective 1: Objective 2: To ensure efficient use of natural resources					
Soil, Water & Noise	The policy is supporting development which will incur impacts although it highlight the importance of this being sensitive development.	-	0	-	? depends how the policy is implemented	Effects mitigated by supporting health design policy.
SA/SEA Objectives	Objective 3: To improve air quality Objective 7: To reduce greenhouse gas emissions and promote efficient use of energy in all activities					
Air	The policy is supporting development which will incur impacts although it highlight the importance of this being sensitive development.	-	-	0	? depends how the policy is implemented	Effects mitigated by supporting health design policy.
SA/SEA Objective	Objective7: To reduce greenhouse gas emissions and promote the efficient use of energy in all activities Objective 9: To promote sustainable design Objective 5: To minimize flood risk and encourage Sustainable Urban Drainage System (SUDs) for new developments					

Climate	<p>The support for low carbon, energy efficient technologies is welcomed. The Dalston masterplan is seeing strategic locations for CHP and biomass. To strengthen this policy clarity is needed in the position of the proposed site in Dalston and the nature of sites proposed – to accompany what size developments etc in the borough.</p> <p>How does retrofitting existing buildings link in to the estate renewal programme?</p>	–	–	P	? depends how the policy is implemented	Effects mitigated by supporting health design policy.
SA/SEA Objectives	Objective 18: To minimise waste and maximize recycling in the borough					
Waste	No change.	–	–	P	? depends how the policy is implemented	Effects mitigated by supporting health design policy.
SA/SEA Objectives	Objective 9: To protect and enhance the borough's historic environment and preserve the archaeological aspects of the borough					
Cultural Heritage		–	–	P	-/? Negative, depends how the policy is implemented.	

SA/SEA Objectives	Objective 11: To maintain and enhance Metropolitan Open Land and Open Spaces and enhance the landscape character					
Landscape and Townscape	No change.				+/? depends how the policy is implemented	.
Sa/SEA Objective	No relevant SA/SEA Objectives have been identified for this sustainability topic.					
Topic: Population	No change.				Neutral 0	The policy will assist in managing the increases in population growth.
SA/SEA Objective	Objective 3: To improve air quality Objective 4: To reduce noise pollution Objective 10: To reduce poverty and social exclusion Objective 12: To improve the health of people and promote healthy lifestyle					

	<p>Objective 15: To increase the number of decent and affordable homes</p> <p>Objective 16: To provide access to an adequate range of support and community facilities.</p>					
Human Health	No change.				Positive +	Need to allocate locations on pharmacies on a map.
SA/SEA Objectives	<p>Objective 16: To provide access to an adequate range of support and community facilities</p> <p>Objective 10: To reduce poverty and social exclusion and promote cultural diversity</p> <p>Objective 13: To promote educational attainment and the skill level of population</p> <p>Objective 20: To generate employment opportunities for everyone</p> <p>Objective 15: To increase the number of decent and affordable houses</p>					
Equalities	No impact				+/? Positive, depends on how the policy is implemented.	More faculties in areas most in need.

SA/SEA	<p>Objective 16: To provide access to an adequate range of support and community facilities</p> <p>Objective 10: To reduce poverty and social exclusion and promote cultural diversity</p> <p>Objective 13: To promote educational attainment and the skill level of population</p> <p>Objective 20: To generate employment opportunities for everyone</p> <p>Objective 15: To increase the number of decent and affordable houses</p>					
Poverty and social exclusion	No change.				+/? Positive, depends on how the policy is implemented.	More facilities in areas most in need.
SA/SEA Objectives	<p>Objective 13: To promote educational attainment and the skill level of population</p> <p>Objective 20: To generate employment opportunities for everyone</p>					

Employment and Skills					+/? Positive, depends on how the policy is implemented.	
SA/SEA Objective	Objective 14: To reduce crime, the fear of crime and anti-social behaviour of the borough					
Crime and Safety					? Depends on how the policy is implemented.	
SA/SEA Objective	Objective 6: To reduce the need to travel and encourage use of public transport including walking and cycling Objective 7: To reduce greenhouse gas emissions and promote the efficient use of energy in all activities					

Transport	No change				-/? negative, depends how the policy is implemented	Facilities should be in accessible locations.
SA/SEA Objective	<p>Objective: to increase the number of decent and affordable homes</p> <p>Objective 10: To reduce poverty and social exclusion and promote cultural diversity.</p> <p>Objective 11; To encourage complementary activities and land uses together to make more efficient and effective use of land.</p>					
Housing	Competing land uses. Unlikely to be significant.				-/? negative, depends how the policy is implemented	Essential supporting infrastructure.
SA/SEA Objective	Objective 19: To promote sustainable economic growth					

Economy	No change. Indirect positive effect of improving health in general.				+/? Positive, depends on how the policy is implemented.	
---------	---	--	--	--	--	--
