2.
Late C19 building of stock brick banded with red and blue brick and with a stone window dressings. 2 main gabled bays and short lower bays at either side. Set back further right extension. Shouldered pointed arches, with animal carvings in spandrels, to windows, the left of 3 lights, the right of 2. Smaller double and single attic windows above. Pointed-arched doorway at left. In set-back right bay a window similar to the front ones: and another entrance on return of right front. Fairly high pitched slated roofs. Side return at left shows chimneys with double offsets and attractive interlaced brickwork.
