2.
Hospital lodge. 1863. Designed by T L Donaldson and E A Gruning. Red brick with decorations in black headers and yellow brick dressings. Pointed slate roof to eaves. Octagonal. 2 storeys with gabled features breaking up above eaves to south face (with clock) and east face. Square headed 2-light plate glass windows. Mid C20 extension to south not of special architectural interest. The Lodge is an integral part of the German Hospital with the main block.
