2.

Formerly Church of the Ark of the Covenant.

1895 by J Morris. Roughly coursed rubble building with freestone dressings. Square building with projecting west tower and stone spire. C14 gothic style with prominent quoined buttresses. Western angles of nave have octagonal turrets with spirelets. West portal has 2 orders of colonnettes and many chamfered arch. Large 3-dimensional symbols of the 4 Evangelists project from angle buttresses of tower; and similar figures project boldly from angles of tower at cornice level. Curiosity value.
