Forecourt wall, Gates and  
Railings to Geffrye Museum

TQ 3383 30/282  
II

2.  
Early C18 and modern. The walls at the extreme north and south ends are C18 red brick. Between only the lower courses remain. These have been repaired to form a low wall supporting plain, modern railings. Wrought iron gates (C18 restored) with overthrow, at north and south. Central curved back entrance is modern.
