II

2.  
House, possibly with C18 core, has front of early-mid C19. Sides and back are rendered and mostly blank so dating cannot be established from outside. 2 storeys, 3 windows. Stucco with incised lines on 1st floor, banded rustications on ground floor forming voussoirs to square headed openings. Fairly high pitched slated roof with projecting end chimneys. 4 Ionic pilasters rest on 1st floor cill band and support entablature and blocking course. Windows all boarded up. Long cast iron balcony, with anthemion pattern, on 1st floor. Central prostyle Ionic porch to panelled door with sidelights and long rectangular fanlight over reeded door head.
