

Value Matrix

| Attribute | Weighting |
|---------------------|-----------|
| Site Context | 15% |
| Recreational Value | 15% |
| Structural Role | 10% |
| Amenity Role | 10% |
| Heritage Value | 10% |
| Ecological Value | 10% |
| Environmental Value | 10% |
| Educational Value | 10% |
| Cultural Value | 10% |

Approach to scoring

Site Context (Score out of 15) Weighting 15%

Site Access Arrangements (Q12 of site assessment)

General Public Access = 5 points

De facto Public Access = 2 points

Shared/Dual Use = 5 points

Restricted Access (i.e. to clubs and specific user groups) = 3 points

No public Access = 0 points

Green Flag Assessment Access (Score out of 10)

Recreational Value (Score out of 48) Weighting 15%

Q21 of Site Assessment

Active Recreation

For each major role identified = 2 points

For each minor role identified = 1 point

N/A = 0

For each role if dedicated provision exists add 2 extra points, if the role is supported informally add 1 extra point.

Informal Recreation

For each major role identified = 2 points

For each minor role identified = 1 point

N/A = 0

For each role if dedicated provision exists add 2 extra points, if the role is supported informally add 1 extra point.

Signs of informal use (Q25)

Add 1 point for each use identified (max 7 points)

Structural Role (Score out of 6) 10% Weighting

With reference to Q14 of the site assessment add one point for each structural role identified

Amenity Value (Score out of 5) 10% Weighting

With reference to Q15 of the site assessment add one point for each amenity role identified

Heritage Value (Score out of 10) 10% weighting

With reference to Q16:

Score 10 if site includes:

Scheduled Ancient Monument, and or
Open space is listed on EH Register of Parks and Gardens, and or
Site located within Conservation area AND open space is contemporary with surroundings.

Score 5 if:

Site located within a conservation area but is NOT contemporary with surroundings and/or;
Open space includes listed building.

Score 3 if:

Site located within setting of a listed building

If none of the above score 0

Ecological Value (Score out of 10) 10% weighting

With reference to Q18a

Score 10 if site designated as either:

Site of Metropolitan Importance
Site of Borough Importance Grade 1 or 2

Score 5 if site designated as either:

Site of Local Importance
Local Nature Reserve

Score 3 if 20% or more of the site is classified as natural greenspace

Environmental Value (Score out of 6) 10% Weighting

With reference to Q18b score one point for each of the environmental roles identified.

Educational Value (Score out of 6) 10% Weighting

With reference to Q19 of site survey pro-forma score 2 points for each existing educational role and 1 point for each potential role.

Cultural Role (Score out of 8) 10% Weighting

With reference to Q20 of Site survey pro-forma

Allocate 2 points to each existing role and 1 points to each potential role to derive a total cultural score.
