2.
Long, shallow early-mid C19 crescent, each 2 storeys and basement, 2 windows. Stock brick with stucco cornice and parapet, stuccoed ground floor. Gauged flat brick arches to long 1st floor sash windows with glazing bars, in stucco-lined reveals, giving on to balcony with cast iron railing. On ground floor segment-headed sash windows with glazing bars in segment-arched recesses, 3 steps to 6-panel doors with flanking pilasters, cornice head and blocked fanlight. Wrought iron hand and area railings, the latter with spearhead standards and urn finials. End houses have entrances on returns. Some houses have added mansards with dormers.

Nos 9 to 67 (odd) form a group with the King William IV Public House which is of local interest.
